Transmittal Memo

Date: April 23, 2019

To: Kavitha Kumar, Senior Planner, County of Santa Clara

From: Kim Tschantz, Cypress Environmental 

Subject: Cordoba Center Project

As Requested **For Your Use** **For Review and Comment** **Other: Sign and Mail**

Remarks:

As requested, I am submitting two paper copy sets and one digit set on flash drive of the revised plans for the Cordoba Center project. Some sheets of plans submitted on January 4, 2016 for the original Use Permit/ASA/Cemetery Permit application have been revised to address the following:

- The Title Sheet (Sheet T1.1) index has been revised to incorporate the 5 sheets of the cemetery plans;
- The Site Plan (Sheet SK1.1) has been revised to reduce the amount of the impervious surfacing as described in my letter to you dated April 22, 2019;
- The two sheets of the Landscape Plan (Sheets L-1 and L-2) have been revised as described in my April 22, 2019 letter to you and to comply with revised Mitigation Measure 4.1-2;
- The cemetery plans, submitted to your office on July 10, 2018, have been included in this plan set as Sheets SK1.3 (Cemetery Site Plan) and Sheets C-1 through C-4 (Cemetery Grading Plan, dated April 2018).

The cemetery plan sheets (SK1.1 & C-1 -- C-4, dated April 2018) should be used for the most recent layout of cemetery terraces and grave sites. Other plan sheets that include plan views show a conceptual cemetery layout.

Any plan sheets not identified in this memo have not been revised from that included in the January 4, 2016 Use Permit/ASA/Cemetery Permit submittal.

Attachments: 2 plan sets and 1 digital plan set on flash drive.
