Rob Eastwood Santa Clara County Planning Department 70 West Hedding Street 7th Floor, East Wing San Jose, CA 95110

Re: Lexington Quarry Use Permit Application Modification

August 31, 2006

Dear Mr. Eastwood:

This letter constitutes a portion of Lexington Quarry's Use Permit application modification submitted this date. Lexington Quarry hereby modifies the project proposed in the initial application and July 2002 modification in the following respects: (1) The total number of trucks coming to the quarry empty and departing the quarry with aggregate materials shall be no more than 210 per day, (2) "silent" beepers (which employ a flashing light during back-up and only beep when they are within a short distance from an object) will be used at the quarry in place of back-up beepers (which beep whenever the vehicle is moving backwards), and (3) blasting is expressly excluded from the use permit sought by the applicant. Should the applicant in the future determine that any blasting is necessary (this would likely occur, if at all, only during the final reclamation efforts), then the applicant will seek an amendment to its use permit, which amendment application would include any environmental review required by CEQA.

Other changes to the physical characteristics of the quarrying operation and the reclamation of the mined area are reflected in the other portions of this modification application. Those include:

 The geology/geotech report from Cleary Consultants, Inc. dated July 2006 and submitted to the County in early August;

848 The Alameda San Jose, CA 95126 ph. 408.293.4300 fax. 408.293.4004 www.matteoni.com Rob Eastwood

August 31, 2006 Page 2

- 14 copies of revised reclamation (MCA) and quarrying (Ruth and Going plans). These plans include (a) existing and new use permit boundaries, (b) total area of quarrying, (c) total area of disturbance, (d) modifications to settlement ponds (size/depth), (e) cross sections and (f) drainage information/improvements, in addition to other details normally required on reclamation plans.
- Schaaf & Wheelers' HydrolOgy Report providing updated calculations based on the expanded reclamation area.
- A report describing water usage from the applicant's wells used in the operation.
- A lot line adjustment application regarding the addition of approximately 2/3 of an acre of the lands of Modir into the use permit area.
- Fees for this modification application in the amount of \$5,619.50.

In addition, as of this date, the applicant has completed the staking of the existing and proposed Use Permit boundaries along the southern side of the use permit area.

The applicant believes that the materials submitted comprise a complete modification application and that the County now has all information necessary from the applicant to complete environmental review of the applicant's project and to complete this permit process.

Very truly yours,

BARTON G. HECHTMAN

APPENDIX A

PROJECT APPLICATION

Santa Clara County Planning Office 70 West Hedding Street, 7th Floor San Jose, CA 95110

Subject: Lexington Quarry County file #3690-30-48-88P (11P68.5)

Dear Sir/Madam:

On behalf of West Coast Aggregate, Inc., we are requesting the following:

- A) Modification of an existing Use Permit to allow expansion of the quarry operation by approximately 5.6 acres
- B) Environmental Impact Report for the expansion
- C) Renewal of the existing permit, County file #3690-30-48-88P (11P68.5) for an additional 15 years

The following is a detailed explanation of the items noted above:

- A) This application is accompanied by a plan showing the additional 5.6 acres on the southwest, which are proposed to be harvested in conjunction with the existing quarry permit. Also included with this request is a modification to the existing Reclamation Plan that will include this 5.6-acre expansion, as per Section 36-4.7 of the Zoning Ordinance. As part of this request, we will also be filing for Architectural and Site Approval, regarding modification of A.S.A. Permit #3690-30-48-90A.
- B) West Coast Aggregate is filing an application for an Environmental Impact Report, in compliance with the County's procedures for consultants to prepare environmental documents for private projects in Santa Clara County, dated March 3, 2000.
- C) The existing Use Permit extension request is for an additional 15 years. This quarry operation pre-dates County land use ordinances. It has been in continuous operation by various operators since its inception. County records reflect existing Use Permits on this site, including County File #11P68.5, which was issued in 1968. The present operation has been

Ruth and Going, I

conducted in compliance with the 73 conditions associated with that permit.

Therefore, on behalf of West Coast Aggregates, we are submitting the following information:

- 1. The County Land Development Permit Application.
- 2. A West Coast Aggregate check in the amount of \$14,669 for the fees.
- 3. 14 sets of full size plans, titled "Plans For The Quarrying On The East Face Of Lexington Quarry, Santa Clara County California, For West Coast Aggregates, Inc.".
- 4. One (1) plan set reduced to 11"x17".
- 5. The Well Information Questionnaire.

Please contact me with any questions, or require additional information to process this application.

Sincerely,

Luke Stamos
