To Whom It May Concern:

Thank you for the consideration in our extension of time for our building site approval. We have been working diligently the last 3 and a half years of owning the property to get permit approval and build our dream home. The previous owners had obtained the approval and we bought the property hoping to streamline the home building process, however along the way we encountered some hiccups. We have hired a different architect to redesign the property, we have had to get a different civil engineer/surveyor, we had to hire a different waste system designer, and mistakes were made causing additional delays. Please grant us an extension as we are now so close to building our dream home for us and our family.

Sincerely,

Jace and Michelle Hider
