Modification of Use Permit PLN16-17

This letter is to request a modification of the approved use permit to modify the water connection condition.

During the process of obtaining the building permit for the Main Buddha Hall in December 2018, the Department of Environmental Health asked us to contact The State Water Resources Control Board to determine whether the existing well for the proposed Buddha Hall is to be permitted, as a Public Water System with the State.

The State Water Resources Control Board district Engineer required us to pursue a water connection with the city of Morgan Hill due to the new Senate Bill 1263 became effective on January 1, 2017, and Senate Bill 200 became effective on July 24, 2019.

We applied for a water service extension from the City of Morgan Hill on June 17, 2019. The Mayor and the City Council Members of the City of Morgan Hill have approved the water service extension on Nov. 20, 2019.

After over 18 months of interagency discussions between State Water Resources, County Director and Planning manager, and LAFCO officers, the City of Morgan Hill filed an out of Agency Service Contract Application with LAFCO. On June 2, 2021, LAFCO commissioners approved the water service connection.

This is a unique circumstance and is unforeseen by the new senate bills 1263 and 200 that went into effect in the middle of the permit process. Therefore, we would like to request the county to grant us the use permit modification to connect to the City of Morgan Hill water system.

Sincerely Yours:
