San Jose CA*

Record: PLN17-11102-EXT

Dear Planning,

After reviewing the comments from Fire and the Department of Environmental Health and meeting with representatives of both, we have uploaded the requested sets of plans that cover all comments being made.

Please review these additional sets of plans from our original permitted construction. They comprehensively cover the current infrastructure of the site and were what was provided for the original approval of the ASX.

Kind Regards,

Stephan Garaffo

Nestldown Senior Director of Facilities
