RE: Lands of Orozco/San Bruno GV

Hi Darrin,

Hope all are healthy.

Correspondence dated July 14, #6 on subject project, request testing of the leach lines. This project will be conditioned to prepare a final grading plan for issuance of a grading permit once the application is declared complete. You will be asked to approved the grading permit before it is issued. Is it possible for you to make the testing of the leach lines a condition of the grading permit. Items #5 and 6 will be provided immediately with our re-submittal. Let me know if you need anything additional to consider this request.

Gloria V. Ballard
