Re: File No. PLN20-0105  
Design Review and Grading Approval  
3085 Paseo Vista

The following is a response to comments dated June 14, 2021:

Planning Office

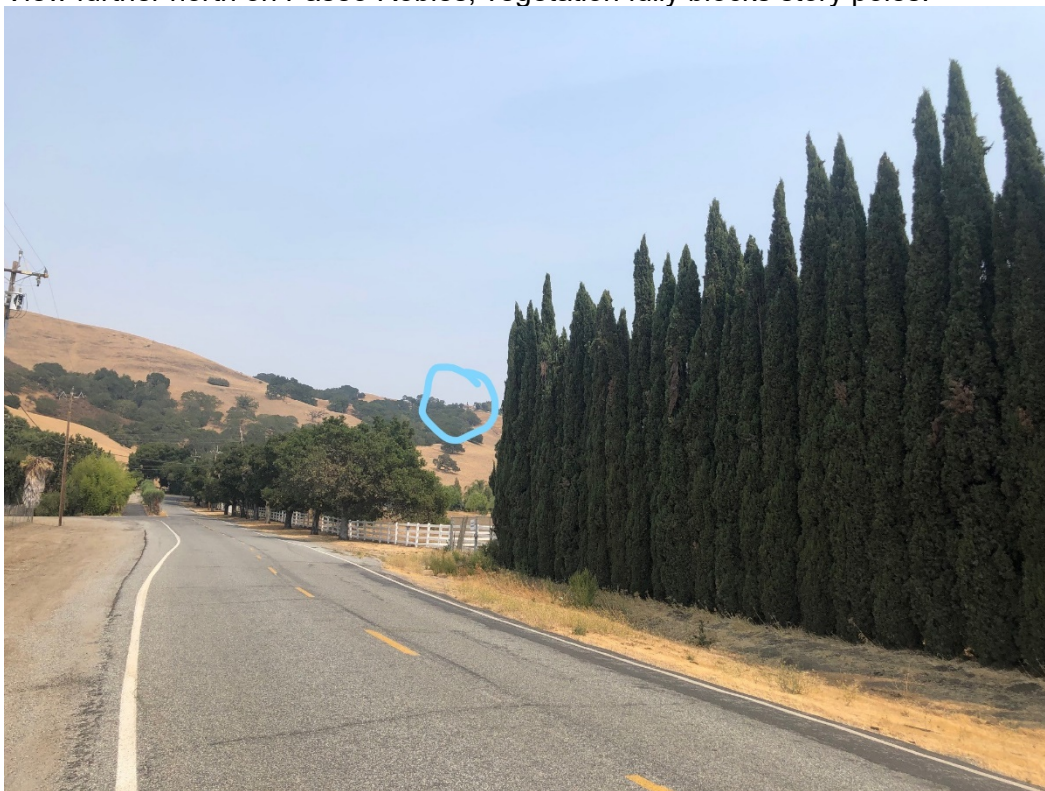

1. Added note to remove debris and hydroseed
2. Submitted revised color board
3. Pictures of story poles of the proposed residential accessory structure submitted below

View from Paseo Robles. Story poles are blocked by house and tree to the left of the house. This is the most visible location of the story poles.

View further north on Paseo Robles, vegetation fully blocks story poles.

View from Maple Ave. Existing vegetation screens the story poles.

4. Legalizing area 1 and 2 would be temporary disturbance since it will be to convert to ag which is exempt.

#### Land Development Engineering

5. Detention pond changed to underground system in the area of the structure.
6. Revised plans to show abatement in slope easement area

7. Revised plans to show concrete debris removed.
