

# CHAPTER 6

---

## Written and Spoken Comments on the Recirculated Portions of Draft EIR, and Responses to Comments

### 6.1 Introduction

This chapter contains copies of the written comment letters (including emails) received from agencies, organizations and individuals, and copies of the public meeting transcripts; during the public review period on the Recirculated Portions of Draft Environmental Impact Report (June 12, 2018 through July 26, 2018). Each letter received during this comment period is reproduced here in its entirety, with the exception of certain attachments to three comment letters (Comment Letters RA-MP, RA-MV, and RA-PV) that did not comment on the adequacy of the Recirculated Portions of Draft EIR (in those instances, the subject attachments are included in their entirety in Appendix RA-MP, Appendix RA-MV, and Appendix RA-PV, respectively, in this Response to Comments Document.

### 6.2 Comments and Responses

Each written comment letter is designated with commenter code in the upper right-hand corner of the letter and arranged in alphabetical order. As discussed in Chapter 3 in this Response to Comments Document, the commenter code for comments on the Recirculated Portions of the Draft EIR begins with a prefix indicating whether the commenter represents a public agency (RA), an organization (RO), an individual (RI), or a speaker at the public meeting (RPM). This is followed by a hyphen and the acronym of the agency or organization, or the individual's last name.

Within each written comment letter, individual comments are labeled with a number in the margin. Immediately following each comment letter is a corresponding individual response to each numbered comment.

Within each of the public meeting transcripts (i.e., RPM1 and RPM2), individual speaker comments are labeled with the name of the speaker followed by the numbered comment of the speaker in the margin. Immediately following each public transcript is a corresponding individual response to each numbered comment.

Where responses have resulted in changes to the Draft EIR (including the Recirculated Portions of Draft EIR), the reader is referred to changes that appear in Chapter 2 of this Response to Comments Document. Where the individual response refers to the reader to one or more master responses, the reader is referred to the applicable master response(s) in Chapter 4 of this Response to Comments Document.
