**County to Hold Community Outreach Meetings on  
Proposed Zoning Amendments for Commercial,  
Institutional, Recreational and Industrial Uses in Rural  
Districts**

**WHAT:**

The County of Santa Clara is inviting the public to attend community meetings, held in three locations with the same agenda at each meeting, intended to present proposed Zoning Ordinance amendments for industrial, commercial, recreational and institutional uses in rural districts. The proposed modifications would subject similar uses to the same zoning ordinance standards addressing size, scale and intensity of uses in order to ensure consistency within individual rural base zoning district.

These standards are not proposed to apply to uses that are identified as primary uses in the rural areas, or uses that are allowed by right, such as single-family residential use, open space or natural resources, and agriculture.

The County encourages comments and participation from the public, especially from those interested in these changes or proposing commercial, industrial, recreational, or institutional uses in the rural districts.
